- Strong organizational skills and the ability to troubleshoot technical issues.
- Eager to apply skillset to a new career in software development collaborating with others to build efficient and useful solutions.

Personal Projects

CRUD Demo

CRUD Demo is a CRUD application built on Java and Spring Boot, using ajax, html, and css for the front-end, containerized using Docker, deployed to the free cloud service, Render.com. The Dockerfile utilizes bash scripting in order to prevent the web application from being put in sleep by the cloud service's inactivity timer by sending HTTP requests to itself using curl.
